### IT IS SUMMERTIME AGAIN!

For us it means that we lay down our tools for this season and start to think about what renovations will be needed this coming Winter.

Last Winter we renovated four of our rooms which are much appreciated by our guests. To give you an example, it is exciting to enter a bathroom which has a painting from the 18th century behind a glass panel.

### OUR FOREIGN GUESTS

How far is it to Gotland? It depends where you travel from! We have many long distance travelers and we have asked them how they found Visby and Hotell St. Clemens.

In January a young couple came from Hong Kong, they had been to Finland to see the Northern lights, then seen our Chinese home page and decided Gotland was not too far away.

In February came an American

couple who had been visiting their daughter in Oslo, since they were in Europe they decided to visit historic Visby as well.

In June we had guests from New Zealand who had been at a congress in Stockholm and wanted to see more of Sweden and chose Gotland.

It's not uncommon that our guests has been in Visby before, on a shorter cruise and decided to come back for a longer stay. Or that there is a special intressed, like Bergmans grave, fossils, fishing or a movie setting that has been the main reason for the visit.

And then there are those who want to see the island of their ancestors. We can help you find relatives still living on the island, read more: [www.gotlandancestors.com](http://www.gotlandancestors.com).
